Do you have control

over your climate?

If you don't know the answer to that question, it could be costing you a lot of money each year. But it doesn't have to be that way. Taking control, and saving energy and money in the process, is as easy as partnering with Climate Control Mechanical Services. We have the experience, knowledge and reputation to assist you with all your climate control needs. Keeping your facility running at peak performance saves you time, money and helps the environment.

## What can Climate Control do for you?

Climate Control Mechanical Services (also known as CCMS) is a full-service HVAC/Mechanical company that is ready and equipped to meet all your temperature needs. We offer professional services in:

- Analysis
- Troubleshooting
- Performance enhancements
- Green energy recommendations and consulting

Facility services include:

- Design-Assist
- Design-Build
- Fast Track Mechanical Contracting
- Mechanical Emergency Response Team (MERT)
- Predictive Maintenance
- Restoration
- Optimization and Enhancements

# Why Climate Control Mechanical Services?

At Climate Control Mechanical Services, we take our business seriously. We have a great reputation backed by years of expertise in the industry. We are also conveniently located in the heart of Central Florida. We can meet your HVAC needs in a timely and efficient manner, and all at an affordable price. We stake our reputation on it.

We work with clients to meet their financial needs, helping to provide and secure financing, leasing and rebate options, to make energy efficiency affordable and accessible to all. We handle projects from construction through green-energy upgrades and modifications. Our business is helping your business run more smoothly and more cost-efficiently, when it comes to energy needs.

## Did you know?

Energy efficiency is a key factor in maintaining long-lasting and high-quality performance. Getting your system running efficiently cuts your costs and improves your bottom line. Don't let another day go by of wasting money. Give us a call to see how we can get you on the fast track to efficiency.

### Energy efficiency facts from the Environmental Protection Agency:

- A 10 percent reduction in energy costs for the average full-line discount retailer can boost net profit margins by as much as 1.55 percent, and sales per square foot by \$25.
- A 10 percent reduction in energy costs for the average limited-service restaurant can boost net profit margins by as much as 4 percent, and sales per square foot by \$17.
- A 10 percent reduction in energy costs for the average supermarket can boost net profit margins by as much as 16 percent, and sales per square foot by \$44.
- Colleges and universities spend close to \$2 billion each year on energy. Adopting a strategic approach to energy management can lower your energy bills by 30 percent or more.
- Every dollar that a nonprofit healthcare organization saves on energy is equivalent to generating new revenues of \$20 for hospitals or \$10 for medical offices.
